

# GRAND ROUNDS

PRESENTS

## Can nutrition impact the outcomes of critically ill patients?

December 7, 2022  
6:30AM — 7:30AM

Daren Heyland, MD, FRCP,  
MSc.

Professor of Medicine  
Department of Critical Care Medicine,  
Queen's University, Kingston, ON

### Course Objectives:

1. Understand which patients benefit from what dose of protein in the ICU.
2. Describe methodological considerations in design and interpretation of RCTs.

The University of Washington School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Washington School of Medicine designates this live activity for a maximum of 20.0 AMA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. (Each session is 1.0 credits).

Speaker Disclosure: Dr. Heyland receives research support from Worwag Pharma and Pascoe Pharma.  
Planning Committee Disclosure: Drs. Wood, Marquardt, and Friedrich have no financial relationship to disclose.
