Baylor University Medical Center

OBJECTIVES

- Discuss current issues and cases in health care ethics, including ethical challenges displayed in surgical care, particularly during pandemic times.
- Understand the conflicts that arise in everyday clinical surgical practice, and highlight situations which can be better approached and solved with a surgical ethics view.
- Employ skills in decision-making for clinical cases that present ethical problems.
- Identify fundamental concepts and principles for the understanding of ethical issues in clinical care.
- Discuss and utilize a Surgical Ethics framework and tools to assist in better decision making.

Planning Committee Disclosure: Drs. Wright, Alberto Ferreres, and Denise Dudzinski have no financial relationships to disclose.

Accreditation with Commendation: Accreditation with Commendation: The University of Washington School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Washington School of Medicine designates this live activity for a maximum of 10.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
